Important Notice to Customers

中国建设银行(亚洲) China Construction Bank (Asia)

Notification of SWIFT ISO 20022 Address Format Upgrade

To support the SWIFT ISO 20022 upgrade our Online Enterprise Banking will gradually adopt **Hybrid Structured** or **Structured** address formats for local, global, and mainland China CCB payments —to ensure that remittance information is transmitted more clearly and accurately.

Customers using unstructured addresses, please take action immediately:

1. Check all **scheduled/frequency transactions** – Select the **"Structured"** Address or **"Hybrid Structured"** (If Applicable) and ensure **Town Name and country** are included in beneficiary, beneficiary bank and intermediary bank (if any).
2. For batch remittances, use the **latest template** to import data.

Please update your address data now to avoid delays or processing issues.
If you have any questions, please feel free to contact your Relationship Manager or customer hotline (852) 2903 8366 for enquiries.

Reference:

1. **Scheduled Transaction Modification**
   To modify or delete a transaction, the Maker/Last Level of Authorizer/ Master should follow the path below:

Maker (Option 1)

Menu Path: Payment > Scheduled Transaction Modification>Search "Not effective" payment >Modify> Select the "Structured Address" mode and ensure Town Name and country are included in beneficiary and intermediary bank (if applicable);

After the modification, please have the next Level of Authorizer/ Master conduct approval.

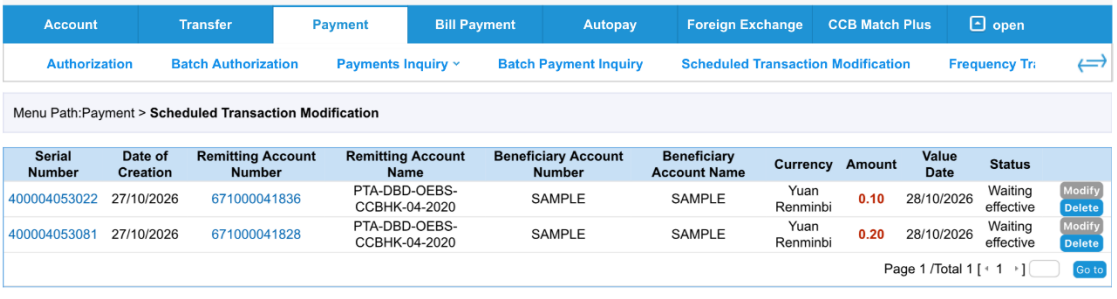

Back

Last Level of Authorizer/ Master (Option 2)

Menu Path: Payment > Scheduled Transaction Modification>Search "Not effective" payment >Delete

After deletion, please let Maker select the "Structured Address" mode and submit the transaction again.

2. Frequency Transaction Modification

To delete a transaction, the Last-Level Authorizer/Master should follow the path below:
After deletion, please have the Maker select the "Structured Address" mode and resubmit the transaction.

Last Level of Authorizer/ Master

Menu Path: Payment > Frequency Transaction Modification > Search "In Progress" Payment >Delete

Reminder: The input layout for "Payments to a Local Bank" and "Payments to a Global Bank" have been updated (name and address fields have been separated). Please check that the information entered is accurate. Note that if the payee information entered is incorrect, the remittance transaction you submitted may not be returned.
