#### IMPORTANT NOTES:

This questionnaire is designed to help your company consider your company's attitude toward investment risks. Please complete this questionnaire to help you understand your company's risk profile.

This questionnaire is provided by China Construction Bank (Asia) Corporation Limited (the "Bank"). It asks questions which provide some indication of the overall general attitude toward risk for a typical investor displaying the investment characteristics. It may not match your company's actual attitude toward investment risk, but it indicates the profile your company may fit into. The results of this questionnaire are derived from information that your company has provided to the Bank, and only serve as a reference for your company's consideration when making your company's own investment decisions. This questionnaire and the results are not an offer to sell or a solicitation for an offer to buy any financial products and services and they should not be considered as investment advice. Your company is encouraged to consult your company's own independent financial advisors before making any investment decision.

The past performance of an investment product is not a guide to its future performance and yields are not guaranteed. The value of an investment product can go down as well as up and your company could lose some or all of the principal amount invested. Investment products (such as securities, mutual funds, bonds, structured products, etc) are not deposits or other obligations of, or guaranteed by, the Bank or any of its affiliates. For the risks involved in investing in the investment products, your company should refer to the offering documents of the relevant investment products.

Your company's risk profiling category may change in reference to your company's current attitude toward investment risks. In view of such, you are encouraged to review your company's existing investment portfolio taking reference to your company's latest risk profiling category. Please contact our Relationship Manager if you need further assistance.
