Step 2 » Method 3.4

Switch on the "Manage Mobile Token Status" button.

Step 3

Read and accept Terms and Conditions.

Step 4

Enter the one-time password received on your registered mobile phone number with our bank and click "Submit".

Mobile Token Service Registration Demonstration

Step 5

Enter your self-defined 6-digit Mobile Token Password twice and click "Submit".

The screenshot shows a mobile application interface titled "Mobile Token". It features two input fields for a 6-digit PIN, each with a label "Setup a PIN" and "Verify the PIN" and a series of six dots for the digits. Below these fields is a blue "Submit" button. At the bottom, there is a "Remarks" section with a warning icon and text stating: "The security PIN set up above will be used for login, transaction authentication and obtaining One-Time Security password."

Step 6

You have successfully registered the Mobile Token Service. The Mobile Token Service will take effect for **high-risk transactions in 6 hours**. You may continue activating the Biometric Credential Authentication service.

The screenshot shows a mobile application interface titled "Mobile Token". It features a large blue circle with a white checkmark and the word "Complete" below it. Below this, there is a message: "You have successfully set up Mobile Token service. The service can only be used after 6 hours for high-risk transactions." At the bottom, there is a section titled "Activate Biometric Credential Authentication Service?" with a subtext "You may also activate in Security Center later." and a blue button labeled "Activate Biometric Credential Authentication Service". Below the button is a link labeled "Main Page".
